

[Provider communications from ODJFS regarding claims processing](#)

The Ohio Department of Job and Family Services (ODJFS), Ohio's Single State Medicaid Agency, is planning to begin utilizing a new claims processing system (MITS). The projected implementation date is August 2, 2011. You may have received emails from ODJFS about MITS. This does not impact how you will submit claims for waiver services to DODD. This will impact the timeline to submit adjustments to paid claims. Please see the communications referenced below for more information.
